

LAKE MAINTENANCE AVE MARIA, FLORIDA

Client

Ave Maria Stewardship Community District
Ave Maria Master Association

Location

Collier County, Florida

Project value

\$297,000

Since 2007, the Ave Maria Stewardship Community District ("District") and the Ave Maria Master Association ("Master Association") have annually awarded Collier Environmental Services a contract for lake and littoral zone maintenance, littoral zone planting, fish stocking, and lake aerator maintenance. The contract objective is to provide a complete and balanced ecosystem by proper maintenance of District and Master Association lakes and littoral zones.

The scope of work includes monthly inspections and treatments of the 185 acres of lakes and littoral zones. Environmentally sound and proven practices are employed on all lakes present in the town. Treatments are made using all-terrain vehicles, by boat, and by hand where necessary. All treatments are supervised Florida Department of Agriculture commercially licensed personnel.

All lakes are well balanced and healthy.

Littoral Zone Planting

Fish Stocking

Weed and Algae Control
