

PROJECT PROFILE

AQUATIC MANAGEMENT NAPLES, FLORIDA

Client

The Estuary at Grey Oaks Country Club

Location

Naples, Florida

Project value

\$159,000

In 2009, The Estuary Country Club at Grey Oaks selected Collier Environmental Services for a \$159,000 contract for lake, littoral zone, and preserve maintenance in Naples, Florida. The contract objective is to provide maintenance to the club's lakes, littoral zones, and preserve areas. The Estuary is an upscale club with high level maintenance requirements.

The scope of work includes weekly inspections and treatments of the 44 acres of lakes and littoral zones. Preserve areas are inspected and treated on monthly, bi-monthly, and quarterly schedules. Sound environmental practices are employed to these sensitive natural areas. All treatments are supervised by both Florida Department of Agriculture commercially licensed personnel and Certified Natural Areas Managers.

The goals of the contract are being met and the lakes, littoral zones, and natural preserve areas are in pristine condition.
